Data Preparation Process

01

Data Loading

Imported using pandas

02

Initial Exploration

Checked structure and summary statistics

03

Missing Data Handling

Imputed using median ratings by category

04

Feature Engineering

Created age groups and purchase frequency metrics

05

Database Integration

Loaded into MySQL for SQL analysis

Revenue by Gender

\$157,890

Male Customers

Higher revenue generation

\$75,191

Female Customers

Significant contribution

Product Performance Insights

Top Rated
